Note: In the “actual page text” section I am expecting you to write every bit of text that will appear on the page. If you write an outline or samples you should expect to receive a 0/10 on this assignment.

Name: Luis Jimenez Perez

Description (From Milestone 1):

Please paste your project description from Project Milestone 1 here. If you’ve changed your mind about the topic of your project, feel free to rewrite your description.

My idea for my project is to make a website designed to help users discover new music across various genres, explore artists, and listen to different songs. I’m a big music person and like to listen to different genres so I was thinking of a way to make a website to help people discover new music. I’ve done a project before that involved music so I figured why not continue doing projects about music.
