

IST 263 Project Milestone 1

Name: Andrew Kassel

Description: Submit a description below of the idea for your website project. This proposal should be 50-100 words.

My website will be about the Outer Banks, NC. I am there a lot, and its really nice there so I will make a website promoting the area and local businesses. I can put restaurants, shops, and other places to show what its like there.

3 Pages: Include some information about what will be on each of the three pages in your website.

1. What will be on the home page?

I will put an image or a few that shows a good representation of the Outer Banks. Along with this I will include some hot-spot destinations like where the first plane was flown or famous restaurants (some being on Diners, Drive-ins, and Dives), and other shops.

2. What will be on the 2nd page?

Image of myself or ones that I took myself in the area. I will include more about some of the smaller businesses that are not as well known as others.

3. What will be on the 3rd page?

I will include areas that aren't businesses, so places to fish, see the ocean, do fun things, and places that are different from restaurants and shops, and more nature in this page.

(I can also include links to these places if possible)
